***GUIDE ON WEB3***

## **what is web3?**

Web3 is the name given to the idea of the future of the internet. The term itself was coined in 2014 by Gavin Wood, founder of polkadot and co-founder of ethereum

## **Web3 in india?**

There are speculation  
that Web3 as a concept  
might have been  
introduced to the indian  
masses for the first time  
through facebook  
changing its name to  
Meta and the rise of  
NFTs.

## **What zionverse is planning?**

With projects like RannBhumi, a 5v5 action-strategy game inspired by the hindu epic Mahabharata and NFT that depict figures from indian history and hindu mythology, we seek to revolutionise indian Web3 while keeping indian culture at its heart
